

Eden Wood AB has been active in the industry since the 1970s. Our products have been appreciated and popular since the beginning, largely thanks to our consistent and excellent quality as well as our flexible product range. Today, the company works with many distributors of outdoor furniture for both public and private outdoor environments.

Eden Wood AB continuously works on developing new products. We strive for simplicity combined with functionality and good design in all our products. We sell our products throughout the Nordic countries as well as in a number of European countries. The company is located along the E4 highway in Örkelljunga.

We use only Swedish quality timber in the production of our outdoor furniture and leisure products. The timber comes exclusively, from FSC®-certified forests in northern Sweden. Wood products from Eden Wood are accustomed to tough conditions and are a guarantee of high quality. Since autumn 2010, we have been FSC® certified. We combine our traditional material, pine, with other materials such as steel and laminate (HPL).

DINING SETS

Dining set Amanda

One table, 90 x 200 cm, och 6 armchairs.

Hot-dip galvanized frames combined with teak. A popular and classic series that Eden Wood has been manufacturing for more than 40 years. These pieces of furniture have long well known, and many will enjoy them for generations to come – a true Swedish classic.

All furniture in the series is built on the same foundation: comfort, design, and functionality. The clean, timeless design and the comfortable seating create a sense of calm for both body and mind.

Take a seat and you'll understand.

EW 4074-GT0
