CAT LITTER

Silica Gel Cat Litter (Non-clumping)/(Clumping)

Silica gel/crystal cat litter's main component is SiO₂, which is white granular in appearance. It can also be mixed with different color particles and different scents according to customer's needs. Silica gel cat litter's adsorption capacity is 5 times than the ordinary cat litter, so it's less consumption, less garbage. It can inhibit bacteria and have strong deodorization ability and easy to clean.

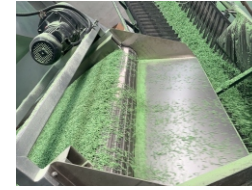

* Technical Data

Item	Specifications
Adsorption capacity/吸附量: %, ≥	90
Bulk density/堆积密度: g/l,	400-500
Pore size/孔径: Å	80-100
SiO ₂ /二氧化硅含量: %, ≥	98
PH/PH值: 4-8	4-8
Appearance/外观:	White/blue/colored lumps/beads
Size/粒度规格: mm	0.5-2mm/1-8mm/2-8mm/4-8mm
Packing/包装:	20kg/bag, colored bags-3.8L, 5L, 7.6L...
Usage/使用:	Suggested usage for 3.8L/bag silica gel cat litter: one cat, one month, two cats, about 15 days.

Tofu Cat Litter (Clumping)

Tofu cat litter has many advantages such as rapid adsorption, easy clumping, and rapid absorption of odors. It is safe and environment friendly, non-toxic, harmless, dust-free. It can be directly flushed into the toilet.

* Technical Data

Item	Specifications
Ingredients /成分:	Soybean fiber, corn starch, guar gum
Dust rate/粉尘:	less than 1%
Product density/堆积:	550-600g/l
Diameter/直径:	2mm, 3mm, 4mm
Clumping speed/结团速度:	fast clumping in 3-5 seconds
Clumping rate/结团率:	>80%
Odor/气味:	Odor free or slight bean smell
Scents/香味:	Original, Lavender, Green Tea, Lemon, Peach...
Storage/储存:	Storage should be ventilated and dry
Usage/使用:	2.5kg can be used in about 20-25 days (an adult cat excretes approximate 5 times a day, each time around 20ml, with a clumping weight of approximate 40-50 grams and tofu cat litter usage of approximate 20-30 grams)
